Company history/background

Manufacturing of specialized, custom-made industrial packaging based on plastic sheets combined with textiles, metal, aluminum, foam, or wood (crossbeams, reusable boxes, sewn inserts, three-packs, packaging dividers, thermoformed packaging, foam dividers and fillers, transport packaging). Large and small quantities, custom designs, automotive, white goods, pharmaceutical, industrial and transport packaging. International clients with well-known consumer brands. Quality certified. 69 employees; second independent, established management level. Brand new production hall and office space. Growth of approximately 16% annually, revenue of

approximately €7.5 million with EBITDA of 5.7% to 11.2%. The company is seeking an industry partner for further expansion and growth in Western Europe. Easily accessible by highway or air. Complete acquisition possible.
