Other

As a young, experienced, and motivated manager at a large insurance group, I intend to take over an established insurance brokerage firm in a major economic region. I also have experience managing an independent brokerage firm.

The established company will be acquired in its entirety, including the commission agreement and the experienced team. Revenue is primarily generated from recurring annual commission income.

I have over eight years of experience in the insurance industry. As a manager in a large insurance group, I know

how to lead personnel and sales. I have further developed my expertise in the target sectors over the past few years. In addition, I can draw on experience from another company acquisition in the insurance industry.

A partnership or equity investment is offered for the acquisition of an established, profitable brokerage firm. Financing required: approximately €1,000,000.
