Company history/background

Brief description: A young, well-established company in the bicycle industry is for sale. High-quality brand-name bicycles/e-bikes, along with accessories and spare parts, are offered in a modern retail space. The attached bicycle workshop provides all services from inspections and maintenance to repairs. Sales are also conducted through the affiliated online store. The company places particular emphasis on innovative customer service, environmental responsibility, and sustainability. The current staff consists of three employees plus the managing director. The store is strategically located in a metropolitan area in Hesse. There is no direct competitor in the e-

bike sector in the immediate vicinity. The location offers excellent transport connections. The modern premises with high-quality furnishings are leased; the lease agreement with an option to extend can be transferred. Sales volume in 2024 amounted to approximately €600,000 with a positive trend.

Other

Ideally, a successor is sought who will be an industry specialist to successfully continue the business.
